

Translations:

- Surgical
- Instruments
- Equipment
- Pharmacy
- and much more.

Medical and medically related translations demand precise technical expressions and great accuracy. When human health is in question, there is no room for translation errors.

We always use the relevant medical terminology in medical translations.

Translations are always done by translators who are experts in both the language pair and subject matter. This guarantees high quality medical translations, delivered in the required time frame.

A translation may be needed urgently, on short notice. For that reason, we are prepared to flexibly serve you according to your requirements - no matter what time of day or day of the week you need the job done.

Pricing is based on the degree of difficulty, language pair and time frame of the translation job.
